The Enterprise Settlement Council also has concerns about the short timeframe being requested for review of this draft terms of reference and draft work plan. We agree with DIAND that there needs to be some sort of guidelines developed on minimum time allotted to allow input on guidelines and terms of references. In addition, we wonder why this short time frame is being applied to this document. As most communities have a two week, or more time frame between meetings it is unreasonable to expect a reply from them within a week. We feel that it is inappropriate that the board keep this in mind when developing their guidelines.
