Liidlii Kue First Nation

Date: February 17, 2003

To: Mackenzie Valley Land & Water Board

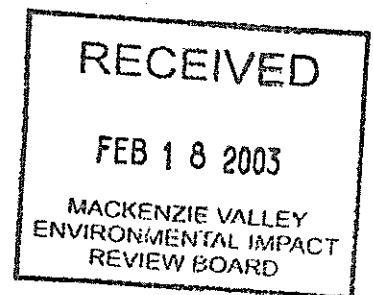

From: Judy Sabourin, Lands Administrator / Coordinator, LKFN

Re: response as requested- Prairie Creek

This letter is in response to the Prairie Creek Application, of Canadian Zinc. Liidlii Kue First Nation as down river users are concerned with possible future contamination of our water sources. We would like a request to be compensated should the water sources be contaminated due to Prairie Creek negligence, spills, or damage to our lands, or water sources.

We also request part 5 be subjected to, as the Act in itself states:
"Conflict between this act and a land claim agreement", as we are an unsettled claim with the Government of Canada, or Crown, we request respect to the Deh Cho process as well.

Mahsi,
