Subject: WP and ToR

Hi Peter,

The Review Board met this morning to discuss the two EAs. Unfortunately, they have not been able to decide whether or not a public hearing should be held as part of the EA process as conflicting opinions are being expressed on these projects. That is why the letter to the three First Nations has just been sent out to solicit their opinions on this item directly.

However, the Board recognizes that this item does not have to keep CZN from preparing their EA Reports. I have attached the two EA documents to this e-mail. Although they will not officially be final until the Board settles the public hearing question, the directions to CZN in each document will be the same regardless of whether or not a public hearing is held. CZN can get to work preparing their EA Reports based on these documents. When the public hearing question has been settled, the official final documents will be distributed to everyone.

Also, I will not be around Monday or Tuesday next week but Louie will be back then if you have any questions. I will leave the files for him.

CZN Phase II
Drilling WP and T...

CZN Decline and
Pilot Plant WP...
