Vern Christiansen
Executive Director
Mackenzie Valley Environmental Impact Review Board
PO Box 938
Yellowknife NT X1A 2N7

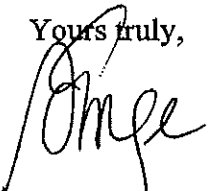

Dear Mr. Christiansen:

The Yellowknife Metis Nation Local #66 requests an opportunity to appear in front of the Mackenzie Valley Impact Review Board (MVERIB) to present our views concerning the development of the Snap Lake Project.

As a directly affected party, this local considers the review process a very important step in the overall process of reviewing the DeBeers proposal.

We are currently familiarizing ourselves with the criteria set by the MVEIRB. We understand DeBeers is now preparing an Environmental Assessment Report in response to those requirements. Once that is received, we would be very interested in receiving an Executive Summary or a briefing session on its content.

Yours truly,

for 
Bill Enge
President
