Robin,

Just a clarification point regarding your meeting notes on the draft ToR discussions. (July 27th). In the first bullet of what I had said, it should read that public meetings with DeBeers personnel are not necessary in Lutsel K'e to review the draft ToR. However, public meetings with the Chief and Council, WLEC, technical expertise and the public are an essential component of our procedures for scoping community issues with regards to the ToR.

Thanks - Steve
