Note to all senders: We are using a very fast, streamlined email system, designed and optimized for satellite and low bandwidth connections; however due to slower wireless connections, please do not send HTML, Pictures or Jokes with a million addresses. (Unless cleared by me first), as it takes a great deal of expensive satellite time to retrieve these. Please use "Plain Text" mode only when sending us mail... Check your "Help" file in your e-mail program to learn how. Do not resend my messages in your reply as it just creates a larger file to send...

Thanks
