Subject: RE: presenters *(Day 2 vs. Day 3)*

Glenda,

I've discussed when DFO should be presenting its issues regarding metals discharge and treatment with Julie Dahl. We've decided that we will discuss metals treatment under the heading of Surface Water and Fish - Day 3. Any questions we may have with groundwater will be directed to the appropriate party on Day 2 - under the hydrogeology section. That means we don't need the time on Day 2 so we can be removed from the Agenda. We also understand that we will then only have a total of 20 minutes to present our issues on Day 3 which should be sufficient.

Thanks,

Elaine Blais

At the time Julie Dahl (in a letter) indicated that you would be doing a talk on water treatment, and I slotted this under hydrogeology, so yes what you have indicated below is correct.

Julie Dahl, Habitat Management will be presenting
Dave Balint and I will be at the table with Julie.

Just for clarification, we need to know when we are to present the various sections of our presentation. So is the hydrogeology section the place to present our metals treatment issues? And we are assuming that the rest of our presentation - TDS, fish habitat assessment, and other issues in our presentation will on Day 3 under the heading Surface water and fish.

Subject: presenters

Elaine:

Do have a list of names of those will be participating in DFO's presentations and/or question period at the De Beers public hearing?
