Unfortunately, we have been preparing for the meeting for about a month and its been almost two months since we started to consider the documents. I think we should proceed with the meeting and let's see what comes from it. I am one of those people that thinks its better to meet then not meet because you never really know what will happen and I prefer the opportunity of sharing issues even if they are in the formulative stages of development.

Louie,

John Ramsay suggestion of a postponement of Friday's meeting would suit us better as well. We need more time for community review of the material.

Thanks - Steve
