Subject: RE: Request for Two Golder Reports and Appendices A, B, C to Appendix IX.3

Hi Joe,

Sorry for the delay.

I have attached copies of Appendix IX.3 with appendices A, B, & C. I have also attached Attachment A to Appendix A of Appendix IX.3.

As per the other two reports:

Golder, 2001. Snap Lake Diamond Project Surface Engineering, Optimization Study, Geotechnical Factual Report. Submitted to AMEC.

Golder 2001a. Snap Lake Diamond Project Surface Engineering Optimization Study, North Pile Management. Report from Golder submitted to AMEC Simons Mining and Metals, Dec. 2001.

As discussed with Louie, we only provided paper copies. In fact, I do not have any paper copies here. Also, I do not have electronic copies of the Geotechnical Factual Report- take a look at the content and you'll understand why. It would be fastest for you to copy your versions to get them to the interested parties. I'll check out how long it would take to get the others.

Note: I will re-submit Appendix IX.3 with appendices A, B, & C including Attachment A the public record to ensure everyone has access to it.

Thanks,
Robin

Hi Robin,

When will we be receiving the following reports? Also, we have another request for the two Golder reports mentioned below. So, please increase the request to 4 copies of each of the two Golder reports mentioned below.

Thanks,

Joe

I had your address wrong the first time I sent this.

Joe

Subject: FW: Request for Two Golder Reports and Appendices A, B, C to Appendix IX.3

Hi Robin,

Please arrange to have 3 of each of the following reports and appendices provided to the Review Board. We will pass 2 copies of each on to NRCan and retain the third copy for the Public Registry.

Thanks,

Joe Acorn

Subject: Request for Two Golder Reports and Appendices A, B, C to Appendix IX.3

Hi Louie & Joe,

We seem to be having some difficulty tracking down the following two reports:

Golder, 2001. Snap Lake Diamond Project Surface Engineering, Optimization Study, Geotechnical Factual Report. Submitted to AMEC.
Golder 2001a. Snap Lake Diamond Project Surface Engineering Optimization Study, North Pile Management. Report from Golder submitted to AMEC Simons Mining and Metals, Dec. 2001.

They do not appear to be on the web site although it says in IR files that electronic versions were given to the Review Board. Would you be able to

send us 2 paper copies of each of these reports?

With reference to Appendix IX.3 of the Snap Lake EA Report, there is a blue page at the end saying "Appendices A, B, C Available Upon Request." I believe we requested these through an IR but have not received them yet. Would it be possible to send us 2 paper copies of Appendices A, B and C?

Thank you.

John
