Subject: FW: De Beers Information Request Round Two (4 of 4)

4 of 4 emails

On July 30, 2002 De Beers submitted its final response to the Information Request (IR) Open Round One, (IR #2), of the Snap lake Diamond Mine Project, issued by the Mackenzie Valley Environmental Impact Review Board. Attached to this email are all of the IR#2 responses. They are also available in paper format upon request. There are 500(+) pages of text included in the file Final IR-2.pdf

Please call or email me if you have any problems opening these files, or have any questions regarding the environmental assessment of the Snap Lake Diamond Mine Project. I anticipate a Review Board meeting in the second week of August to consider all work plan amendment submissions and the Indian and Northern Affairs request for ruling to have technical reports submitted after technical meetings.

Until the Review Board rules on an amended work plan, government experts and parties to the environmental assessment are free to add anything to the public registry, but are under no work plan obligations. De Beers has a non-conformity obligation to address. More information and updates will be provided as soon as the information is available.
