Subject: Re: Draft Hearing Agenda and Reminders

Glenda

Please consider this e-mail as formal confirmation of the intention of the Canadian Arctic Resources Committee to participate in the upcoming public hearings on the Snap Lake Environmental Assessment.

As mentioned in the Pre-Hearing Conference, CARC would like the opportunity to make an opening statement that will make some general observations on the project. We reserve the right to ask questions at any of the technical sessions that may be part of the public hearings. We would also like the opportunity to make a closing statement.

As for our representation at the public hearings, Shelagh Montgomery, CARC's Cumulative Effects Program Director and myself will be in attendance at various points during the course of the hearings.

+++++
