**Subject:** RE: April 7 Reminder

Glenda,  
Environment Canada is requesting a 10 - 15 minute time slot for a presentation regarding Total Dissolve Solids during the Water Quality session. I am not sure where you want to fit it into the agenda as the talk will likely touch on Hydrogeology (treatment) and on Surface Water (impacts of TDS on Snap Lake).  
Please contact me if you require any further information.

Subject: April 7 Reminder

Just a reminder that by the end of today, the MVEIRB would like to hear from the parties intending to participate in the public hearing on the presentation topics that they will be presenting on at the hearing. Below is an excerpt from an email I sent out last week.

---

At the pre-hearing conference, Monday, April 7, 2003 was set as the final date for informing the Review Board of which major topics that each party intends to present on at the public hearing, i.e. indicate from the list below (taken from the draft agenda), which topics your party intends to present on at the hearing:

- \* Geotechnical/Geochemistry
- \* Hydrogeology
- \* Surface Water & Fish\*\*
- \* Air, Waste, and Abandonment & Reclamation
- \* Social/Cultural/Economic

Steve/Jean - note we received the Dogrib's topic list outlined in your March 27th letter.

\*\*There may be opportunity to split surface water/fish presentations into 'physical/chemical response' and 'biological response' - please indicate if you would possibly have presentations under both of these subtopics.
