Tony, I will respond to your points in the order submitted.

1. Your cover letter notes that Aug. 3, 2001 is the last day for comments. On page 10 of the ToR paper copy we received by fax it shows a table with July 31, 2001 as the date for the Approved ToR.

The last day for submitting comments on the Draft ToR is August 3, NOT July 31.

2. Under section 4.1.6 (Conformity), the Deliverable is identified as, "Review Board issues deficiency statement on the developer's EA report." Does this mean that no statement of conformity is issued if the EA is found to conform to the ToR?

The Review Board will issue a statement of conformance formally even if the EA is found to conform with the ToR.

Sincerely,
 LA

Louie,

Thanks for the reminder. I have read the draft Terms of Reference and have a few items that I will discuss with colleagues before making a decision to comment formally on the ToR.

I have only a few minor administrative matters to confirm at this time.
