Subject: Report request Final Report No. 012-1436.5300

Robin, De Beers refers to this report in its response to IR 1.12. ***"Golder Associates Ltd., 2001. Snap Lake Diamond Project, Surface Engineering Optimization Study, Geotechnical Factual Report. Final Report No. 012-1436.5300 submitted to AMEC Simons Mining & Metals, dated August 7, 2001."*** Robin, I don't have it. Can you email it to me so I can put it onto the public register and provide it to GLL.

Thanks
