### Distribution List

**Re: Notice of Referral to Environmental Assessment – Northrock Resources Ltd.  
Summit Creek B-44 Exploratory Well (S02A-004/S02L1-003)**

On March 21, 2003 the Sahtu Land and Water Board referred Northrock Resources Ltd's proposed Summit Creek B-44 well near Tulita to Environmental Assessment, according to section 125 of the Mackenzie Valley Resource Management Act. The Sahtu Land and Water Board cited a potential for public concern as reason for the referral.

Northrock Resources Ltd. proposes to drill a deep exploratory oil or gas well approximately 100 km south west of Tulita. Northrock has been active in this area for several years and conducted a 2D seismic program in the vicinity of the proposed well site two winters ago. Northrock proposes to barge in construction equipment and stage it to allow access and lease construction before an ice bridge can be built across the Mackenzie. For this project Northrock proposes a different staging site and access point than used in previous years. The new access point reduces the length of the access road by about 50% but requires to re-open cut lines from the 1970s. The Preliminary Screening report identified concerns involving harvesters' compensation and impacts on culturally important areas.

The Review Board will initiate the scoping of the project and assessment shortly. Organizations on the distribution list will be invited to comment on a draft Terms of Reference and Work Plan. At a later date they will be asked to identify which role they intend to play during the assessment. Please indicate whether you wish to remain on the distribution list and receive further correspondence, or whether you would like to be taken off the distribution list, by faxing the attached sheet back to me. Please respond by April 3, 2003. If you have any questions or require additional information, please do not hesitate to contact me at (867) 766-7053 or [mhaefe@mvieirb.nt.ca](mailto:mhaefe@mvieirb.nt.ca).

Sincerely

A handwritten signature in blue ink, appearing to read "Martin Haefe".

Martin Haefe

Environmental Assessment Officer
