Subject: RE: Interviews

Dear Laurie,

The sequencing of events for the cumulative effects study may have been affected by the site visit. I have already left a message with the consultant regarding the interviews. I will keep you apprised of the status. Other areas of the project are ahead of schedule. However, it is the deadline for the delivery of this study, August 20th that is critical to the EA processes.

The schedule for the cumulative effects study would not affect the submission of the DARs, which according to the schedule were due July 30, 2003.

Sherry

Dear Sherry,

Have not heard that anyone has been contacted by Mr. Jackson. We are proceeding to finalize our own DAR as well as New Shoshoni and Snowfield's. According to the Schedule these interviews were to be completed during the week of July 21st. I would like to keep as close to schedule as possible and would like to know if there is any problem that we should be informed of.

Thank You

Laurie Stephenson

Hello Gentlemen,

The Regional study commissioned by the Review Board is well underway. Wayne Jackson will be contacting you shortly to arrange interviews.

Sherry
