Hi Kim,

Thanks for the clarification but the Manager's discussions with INAC on this matter were premature. INAC has taken over 5 months to respond to this report. I think the Review Board and INAC can afford to wait a bit longer to initiate these discussions until after the directions on procedure have been provided to the communities.

Also, I haven't heard back as to the status of your consultations with the NEB. Have they started? Concluded?

Why haven't the directions on procedure been issued yet? It's been a while since both the NEB and INAC requested consultations. I'd assume that these directions are a standard process that will be applied to all EAs with details filled in as required. They should be available anytime they are requested.

Joe Acorn
