Lorraine,

It was indeed the Review Board's intention to recommend based under s.128(1)(b)(ii). Sorry for any confusion. This notice will be placed on the public record.

Regards,
Alistair MacDonald

Subject: Imperial Geotech Report of EA

Hi Alistair,

In reviewing the report, we noted that the Review Board refers to its recommendation as being made under "s. 128(b)(ii)" of the MVRMA rather than, we assume, s. 128(1)(b)(ii). Could you please confirm this assumption for our records? One of those due diligence things.

This happened once before, and an email was sufficient; the Board may also wish to put this confirmation on the public registry.

Cheers,
Lorraine
