Subject: Re: RE: DAR re. Deh Cho Geotechnical

Alan -- Yes, we are aware that the geotechnical is separate from the main project. Thanks for the update and keep us posted re. any new information. Peter Redvers

> At present there is no established deadline for IRs regarding the Imperial Geotechnical investigation EA. Your e-mail suggests you are aware that the assessment of the geotechnical work is an entirely separate process from the assessment of the Mackenzie Gas Pipeline. The pipeline is being assessed by a joint review panel, while the geotechnical work is being assessed entirely by the MVEIRB.

>

> There is no deadline yet for Information Requests pertaining to the Geotech EA because the developer has not yet provided the Review Board with a complete set of answers to the Terms of Reference. Assuming we receive those by the July 28th deadline, the Review Board will issue its own Information requests by Aug. 10th. It is only after the developer has responded to those that parties to the environmental assessment, including SKDB, should their IRs. I'll circulate the deadline as that step in the process approaches.

>

> Mr. Ehrlich -- The SKDB has submitted some concerns and information requests to the Deh Cho PWG relating to the DAR with the understanding that these concerns will be forwarded through to your office. What is your deadline for receiving this information? We are aware that the Proponent has until the end of July to respond to your deficiency statement, but are not clear on the deadline for the IRs. Any information you could provide would be useful.
