Jim,

Sorry, I'll be away from the office from March 22nd to 26th. After that we can meet, but as the development is before the Review Board at present, I cannot discuss matters of a technical nature, except for in an open public forum. I can discuss the Environmental Assessment process with you, either in person or over the phone at your convenience.

Community responses with details regarding their concerns are due in the first week of April. On consideration of the responses, the Review Board will develop a detailed workplan. I'll be best able to answer your process questions after that.

Regards,

Alan Ehrlich

Alan,

I will be in Yellowknife on March 25 and 26 and would like to meet with you to discuss the upcoming environmental assessment of the Geotechnical Investigation Program in the Deh Cho region. Would you please let me know if you have any available time slots?

Vern,

Also, Vern if you are available, I would appreciate a few minutes of your time to talk about the role of the MVEIRB in the consideration of our land use permit and water license applications for the Mackenzie Gas Project.

Thanks,

James R Hawkins, P. Eng.
