Subject: Satellite images posted for CGV and Sidon

Hello All,

To assist parties in the CGV and Sidon environmental assessments, I've plotted several of the drill sites proposed by Consolidated Goldwin onto Earthsat satellite imagery using Google Earth. A PDF of these images is now on our website at:

http://www.mveirb.nt.ca/files/Registry/EA0506_005/EA_Start_Up/Rough%20drill%20locations%20CGV%2005%20.pdf

Note that these are my rough estimates of the drill locations based on information from the developer. This is not the developer's actual illustration of its plans.

Hope this is helpful.

Alan Ehrlich
