Follow Up Flag: Follow up
Flag Status: Orange

Is this also not the same?

What is the date of the pre-meeting meeting? I could be travelling.

My response to all the GNWT has filed to date is: How when they say nothing is reported or known the area has a high, moderate or high to moderate potential? This borders on a Monty Python Skit and I will be asking for their parameters.

Respectfully,

Laurence Stephenson

Alan,

Attached is the GNWT's response to the above referenced IR. A hard copy will be provided to you shortly.
