Thx Alan

I should point out the disparity between the IR posed by the GNWT and Mr. Stephenson's IR response. We encourage cooperative approaches between our departments such as the PWNHC and developers in order to ensure a full understanding of the GNWT processes and data access systems. By not contacting the PWNHC at an earlier time, it appears that Mr. Stephenson has not acquired that basic understanding or appreciation.

However, the Hearing will allow an opportunity for clarity to be added.

Respectfully

Gavin More

Subject: FW: SIRC:GNWT Response to IR 1.2

FYI, see e-mail below from developer regarding GNWT submission.

Also, apologies to anyone that has received GNWT responses to IRs more than once. My error.

-Alan Ehrlich
