Hi Alan,

The Project Team has been working on response to Technical Reports for the Giant Mine environmental assessment. We will not be able to provide a table by tomorrow with our analysis. We are working to complete this table for August 10.

Adrian

Alan

As was done in the concurrent NICO environmental assessment (see attachment), Alternatives North would like to suggest that AANDC/GNWT prepare an updated commitments table and response to Technical Reports for the Giant Mine environmental assessment. It would be very helpful to have such a document in advance of the pre-hearing conference scheduled for July 26. Thanks.
