Subject: Giant Mine Remediation Project - Comments on Developer's IR Response
Attachments: EA0809-001_Letter_to_parties- Comments_on_March_2013_IR_responses.pdf; YELLOWKN-#556294-v1-GIANT_-_RESPONSES_TO_WATER_TREATMENT_IR_-_MARCH_14_2013.pdf; YELLOWKN-#556297-v1-GIANT_-_WATER_DISPOSAL_REPORT_AECOM_-_IR_RESPONSE_MARCH_2013_-_FINAL.PDF

Hi Carol and Alan,

On March 15th the Review Board indicated that Parties would have one week to review and respond to the new information submitted by the Developer (attached letter).

In the IR response submitted to the Board by the Giant Mine team (see email below) there were 2 additional reports (2011 Baker Creek Assessment and EEM Phase II – Final Interpretive Report) that were dropped off at the Review Board, but have not been put up on the registry yet.

Clarification on what information the Board received and/or information the Parties are being requested to review related to this IR response would be helpful, as this information is being considered by the Review Board in its decision report.

DFO has reviewed the information in the IR response included in the email below and will not be providing any additional comments regarding our evidence on the registry. We will continue to work with the Giant Mine team and interested parties as additional information and details are provided related to the remediation plan.

Thank you,

Morag
