RE: APPLICATION FOR LAND USE PERMIT - T3 Area, Prairie Creek.

Dear Sir:

*led to amendment
of N800248*

Please find enclosed with this letter a copy of the area for which we are applying for a land use permit.

The main purpose of this area would be for storage of explosive used in our mining operation and a fuse magazine at distances as per the attached plan.

All magazines shall be revetted in an earthen berm. The purpose of this berm will be to deflect any force of accidental initiation of the contents in an upward direction, thereby reducing and minimizing damage to the surrounding environment.

It is hoped that all the information contained herein is satisfactory, and should you have any further questions on this subject, please do not hesitate to contact me at the address shown below.

Yours truly,

W. Behling,
Project Superintendent.
