Tyhee NWT Corporation, Yellowknife Gold Project

Re: Developer's Assessment Report Submission– May 13, 2011

On May 11, 2011, a Tyhee NWT Corporation representative delivered the Developer's Assessment Report to the Mackenzie Valley Review Board office. The Review Board will now conduct a conformity check to determine the document's adequacy of response to the Review Board's Terms of Reference for this development. For next steps in this environmental assessment process please refer to the Review Board's *Final Workplan* for this file, available on the Review Board's public registry at <http://www.reviewboard.ca/registry/>. The Review Board will update the workplan shortly to reflect the developer's revised submission date, and also provide notification when a digital copy of the Developer's Assessment Report will be available on the Review Board's *ftp* site.

Background

On August 27, 2008, Environment Canada referred the Yellowknife Gold Project to environmental assessment, citing a concern that the development might have potential to adversely impact the environment. The environmental assessment is now in the Developer's Assessment Report phase. The remainder of the environmental assessment process will help to identify potential impacts from the development and guide the formation of any mitigative commitments in subsequent phases of this environmental assessment.

Correspondence related to this assessment should be directed to:

Paul Mercredi, Environmental Assessment Officer

Phone: (867) 766-7063

Fax: (867) 766-7074

Email: pmercredi@reviewboard.ca

The Review Board office can also provide electronic copies of documents related to the environmental assessment.

Sincerely,

Paul Mercredi
Environmental Assessment Officer
Mackenzie Valley Review Board
