Distribution List

EA1011-002

Moose Property, TNR Gold Corp. Ltd.

Re: Upcoming Scoping phase of the environmental assessment of TNR Gold Corp. Ltd.-Moose Property Exploration Project EA1011-002

Tentatively the Review Board staff was planning to host a community scoping session during the week of August 9-13, 2010 for the newly referred Moose Property Exploration Project EA1011-002. Unfortunately, due to other information sessions, council meetings and other commitments of the Akaitcho communities during that time, representatives of those communities will not be able to attend such a meeting. The Review Board therefore will not hold the scoping session for TNR Gold Corp. Moose Property Exploration Project at that time.

More information will be posted on the Public Registry in the coming weeks regarding the scoping phase for this environmental assessment. The distribution list will be notified as to how the scoping phase will proceed.

In the interest of an efficient scoping phase, the Review Board encourages interested parties to review the Project Description Report for the moose Property Project – as well as any other document relating to TNR Gold Corp's application for development - on the Review Board's public registry: <http://www.reviewboard.ca/registry/>. The Review Board can provide electronic copies of the Project Description Report on request. An updated and more in-depth Project Description Report is expected from the developer in coming days.

If you have any questions or concerns on this environmental assessment, please feel free to contact me.
