

# Transport Canada

Mackenzie Valley Environmental Impact Review Board

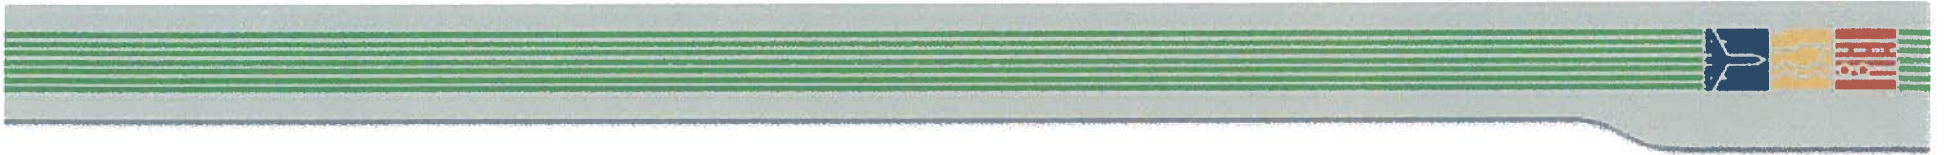

Presentation of Technical Submission

Dominion Diamond Ekati Corporation

Jay Project

September 2015

# OVERVIEW OF PRESENTATION

- Relevant TC Legislation
- Project Components of Interest
- Summary of Recommendations
- Closing Remarks

# TRANSPORT CANADA LEGISLATION

- Key relevant pieces of TC legislation include:
  - *Navigation Protection Act (NPA)*
  - *Aeronautics Act*
  - *Transportation of Dangerous Goods Act (TDGA).*

# PROJECT COMPONENTS OF INTEREST

- TC interest in the Jay Project:
  - Dykes, water intakes, outfalls
  - Temporary in-water works
  - Dewatering of Lac Du Sauvage
  - Transportation of dangerous goods
  - Aerodrome certification

# SUMMARY OF TC RECOMMENDATIONS

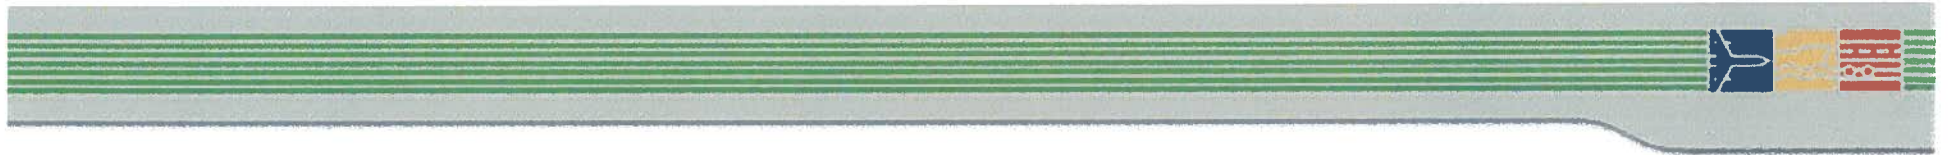

Summary of TC Recommendations from Technical Submission:

1. Navigation Protection Act
2. Transportation of Dangerous Goods
3. Aviation Safety

# 1. NAVIGATION PROTECTION ACT

- TC made recommendations to Dominion Diamond, to submit information to TC to determine the navigability of Lac du Sauvage and the potential applicability of the NPA to project components.
- Dominion Diamond has committed to submit a Notice to the Minister for authorizations under the NPA for project components, such as dykes, water intakes, temporary works, and outfalls related to the dyking and dewatering activities within Lac Du Sauvage.

## 2. TRANSPORTATION OF DANGEROUS GOODS

- TC recommends the following in relation to the overall project:
  - Consult the Transportation of Dangerous Goods Act and Regulations and comply with all Transportation of Dangerous Goods Act requirements.

### 3. AVIATION SAFETY

- Transport Canada requires Dominion Diamond to ensure that an aerodrome requiring certification as an airport meets the requirements of CAR 302 and its associated standards, including Wildlife Planning and Management and Emergency Response Planning.

## CLOSING REMARKS

- TC will continue to work with Dominion Diamond and other interested parties throughout the ongoing stages of this environmental assessment process.
- TC looks forward to continued dialogue and cooperation with all stakeholders, including the Proponent, to ensure TC's areas of jurisdiction are addressed.
