To: Distribution List

Re: Information Requests – Round 2

CanZinc and other parties submitted responses to undertakings from the June 2016 technical sessions in July and August 2016. The submission of second round information requests is the next phase in the environmental assessment.

This note to file informs parties that they can submit second round information requests using the online review system here:

http://lwbors.yk.com/LWB_IMS/ReviewComment.aspx?appid=10996

Second round information requests from parties are due on September 23, 2016.

The Review Board has received a request for an extension to this due date from CanNor, DFO and Parks Canada. In the view of these parties, the response from CanZinc to undertaking #7 is incomplete and the second round of information requests phase should not begin until this undertaking receives a complete response.

The Review Board will decide whether to grant the due date extension for second round information requests in the near future.

If you have any questions the contact for the Project is:
