This should (note the safe out I give myself) be Tina Marckovic's e-mail address marckovic.tina.tm@bhp.com.au

As for point 3 on your note of August 29, 1999 asking if BHP has to "resubmit" a new project description (development description in MVRMA language) - That is up to BHP. They may choose to submit a supplementary document or a a revised development description or any other imaginative way of providing the descriptive information requested.

Sincerely,  
Louie Azzolini
