

Meeting Report – WRRB and GNWT meeting

Main Issue:

The purpose of the meeting was to agree on the wording of commitment #3 from the Tłıchq All-season Road (TASR) technical session, held August 15-17, 2017.

Attendees:

1. Boyan Tracz, Wek'èezhì Renewable Resource Board (WRRB)
2. Anne Gunn, WRRB
3. James Hodson, Environment and Natural Resources (ENR) – Government of the Northwest Territories (GNWT)
4. Heather Sayine-Crawford, ENR-GNWT
5. Laurie McGregor, ENR-GNWT
6. Katie Rozestraten, Infrastructure – GNWT
7. Damian Panayi, Golder

Meeting date: August 23, 2017

Summary of discussion:

The WRRB discussed the rationale behind their request for commitment #3. The GNWT and the WRRB discussed the type of analyses required and constraints associated with the work being suggested.

Developer commitments(s):

Commitment #3 from the TASR technical sessions is:

GNWT commits to describe the likelihood of caribou distribution relative to the RSA by specifically including all available data on the distribution of barren-ground caribou on the western winter ranges including locations of harvesting and locations of caribou recorded during winter aerial surveys since 1996.

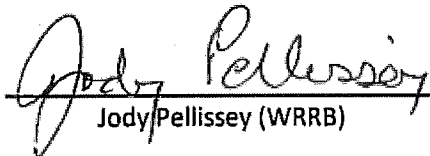

Outstanding issue(s) for the party:

The WRRB may have additional questions for the GNWT based on the information provided through commitment #3.

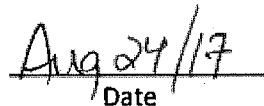

Action Items:

1. GNWT to complete commitment #3.
