**Subject:** Re: Information on Recent EA

Sorry Louie, I didnt tell you what DIAND would like to have as information if this is available. We would like the foll:

- Preliminary screening and report of decision from the referring agency (MVLWB)
- any maps of project location etc
- copies of any applications made for LUP or Water licence
- any correspondence from the PS consultations
- any info from the proponent on the project which may have been supplementary to what was provided in any applications.

thank you Louie, any idea of timing for when this is coming?

Marie

>>> "EAO1" <EAO1@mveirb.nt.ca> 11/23/00 12:53PM >>>  
BlankThe MVLWB referred the Cameron Hills Oil and Gas Drilling application (MV2000A0041 and MV2000L1-0009) to environmental assessment (EA) on November 9, 2000 . The MVEIRB was formally notified of the EA on November 21, and will initiate formal notification next week.

I am providing this advance notice now so that I can find out what you need (information, pictures, maps, digital files, etc...), so that when the Review Board asks for your help and input in preparing draft Terms of Reference for the EA you will be ready and able to participate. I will try to get what you need as soon as possible. Please let me know what you need by Friday the 24 or Monday the 27 at the latest.

I sent this to a very broad distribution list as I don't know who the core EA distribution list will be yet. I

Sincerely,  
Luciano Azzolini
