Dear Janpeter:

Thank you for your letter dated September 12, 2000 in relation to Paramount's application for a land use permit (file #MV2000A0041).

The Deh Gah Got'ie Dene Council along with the Ft. Providence Resource Management Board would like to request a two week extension in order to fully analyze and respond to the above noted application.

The application, Environmental Screening Report and Emergency Response Plans all need to be reviewed in detail. There are also other documents such as the Impacts and Benefits Agreement and Oil & Gas Development Plans which we have still not received and/or reviewed.

In addition to the many documents that need to be reviewed, we also recently lost our Integrated Resource Management Planner to another organization. This position would primarily be responsible for reviewing the application and responding. Because our employee decided to move on, this has put us back a couple of weeks.

We hope to have all of our issues and concerns dealt with in a couple of weeks and we will respond no later than October 27, 2000. Please contact the undersigned should you have any questions or concerns in this regard.

Sincerely,

for.
