**Subject:** Western Geco EA technical report clarification

Hi Alan, just a few points to clarify regarding the shutdown areas DFO has proposed:

**Point Separation-** The shutdown area should be 1km downstream to 1km upstream from Point Separation

**12 Mile Point-** This point is approximately 12 miles upriver from Tulita, near Police Island and identified by 6-8 cabins located there. Approximate coordinates are 64°52' and 125° 15'. The shutdown area should again be 1km downstream to 1km upstream of the point.

**Hume River to Ramparts and Upper Part of Ramparts-** Further information has suggested that this shutdown area should be extended to Hume River to Hare Indian River to incorporate the entire Ramparts due to Inconnu concerns.

Thanks very much,

Bruce

**Bruce Hanna**
