Subject: Sahtu Renewable Resources Board's Letter

Marty, I have not seen your response to the SRRB's 4 recommendations yet. While this may seem minor, I would remind you that the MVEIRB has this letter on their public registry and is also probably expecting a response. Please provide that ASAP - don't forget to cc MVEIRB. I apologize in advance if it has been sent already, but just not received by me. Thanks

Message below was sent on July 15th, 2002.

Marty, could you please provide your comments and/or commitments with respect to the Sahtu Renewable Resources Board's recommendations for the research test program (July 12, 2002 letter)? Please address your response to Terry Baker (as usual) and the Review Board (as the recommendations are included in the letter regarding the main program). Thanks.

Regards,
