

# **Note to File**

## **Mackenzie Valley Environmental Impact Review Board**

**Date:** May 28, 2003

**From:** Martin Haefele, EAO

**File:** Northrock Summit Creek

**Subject:** Telecon with Kimberley Horrocks, Sahtu Land Use Planning Board

I contacted Ms Horrocks to inquire if the SLUPB will identify itself as directly affected party to the EA for Northrock's Summit Creek B-44 Well. Ms Horrocks expressed interest and stated that she has forwarded the identification forms to the SLUPB's chair. She cautioned, however, that the SLUPB likely would not be able to make any contributions to the EA because they lacked the resources.
