Re: CGV, NAGRC, NSV Cumulative Effects Comments - Process Update

NOTES:

Gartner Lee Ltd. has submitted hand drawn maps (now available in the MVEIRB office). Digital copies will follow Monday morning. This fax also clarifies the purpose of the comment period for the Cumulative Effects Study, given the status of the report and maps. In your review, please consider the accuracy of interpretation, additional information sources, completeness (based on your understanding of past, current and future land use in the region), suitability in the choice of valued components given the reason for referral, and the methods. Please be reminded the deadline is **Sept. 17, 2003**. Given that the intended purpose of this phase of the Environmental Assessment can not be achieved, other means to consider potential cumulative effects are under consideration by the Review Board. Details will follow after the Review Board's meeting.

This transmission may contain information that is confidential and privileged. It is intended solely for the use of the addressee and is protected by legislation. If you have received this fax transmission in error, please call (867) 766-050 (collect) and destroy any pages received. Thank you.
