Subject: EA Roles for Paramount Cameron Hills Extension (EA03-005)

Hi Martin,

I just got back from holidays and found this form on my desk. From the discussions I've had with individual Board members, our Committee will not be getting involved in any assessments currently underway. However, we would like to stay informed of the proceedings as it affects lands and communities within our planning area. That would seem to indicate that we should request "member of the public" status but I would like to discuss this with our Committee members first. Our Chairman is currently on duty travel and I have not been able to reach him. We are scheduled to meet next week at which time I can raise this issue. Can I delay our response until then? Please let me know. Thanks.

An important distinction between a Member of the Public and the other two classifications is that a Member of the Public cannot issue or receive information requests or be cross-examined on evidence provided to the Review Board.
