Dear Mr. Lafferty:

Re: Paramount Cameron Hills Extension Environmental Assessment

Thank you for your letter of January 8, 2004, regarding the Paramount Cameron Hills Extension Environmental Assessment Information Request.

Section 39 of the Mackenzie Valley Environmental Impact Review Board's, (Review Board) Rules of Procedure for Environmental Assessment and Environmental Impact Review Proceedings states that all Information Request are issued under the Review Board's authority. This helps to ensure that the Information Requests are within the scope of the proposed environmental assessment and that this information has not been requested previously. The Review Board then places the responses to the Information Requests in a public registry for consideration by all interested parties. The responses then become part of the information by which the Review Board makes their recommendations on the project.

Indian and Northern Affairs Canada (INAC) suggests that you coordinate your Information Request through the Review Board to ensure they become part of the environmental assessment and the Review Board's decision making process. If you have any other questions or if you require information outside of the environmental assessment process, please contact INAC as
