**Re: Developer's Assessment Report timeline Horn River Mineral Exploration**

On July 28, 2004 the Mackenzie Valley Environmental Impact Review Board finalized and issued the Terms of Reference for the Jane Lind Horn River Mineral Exploration project, EA0405-001.

The next phase in the work plan involves the developer's submission of the Developer's Assessment Report (DAR) according to the requirements outlined in the final Terms of Reference. The timelines associated with the DAR phase of the work plan are intended to serve as a guideline. The time allotted for the preparation of the DAR is 10 to 20 working days. Please notify the Review Board in writing if your organization anticipates submitting the DAR any later than August 26, 2004. Your cooperation in this matter will greatly assist us in achieving a timely and effective Environmental Assessment.
