Hey Alan,
I'm back in town and just wanted to touch base re the upcoming Sidon hearing. EC will be happy to do a brief presentation, perhaps similar in format to what DFO will be presenting. Let me know if you have any questions. Take care.

Ivy

Hi Ivy,

I understand that EC as an intervenor doesn't have concerns regarding significance. However, as an expert department, your views matter to others. Could you please put together a short presentation explaining how you reached your conclusion (ie. determined that you have no concerns re: significant adverse environmental effects)?

Thank you,

Alan Ehrlich

Subject: Sidon/CGV

Hi Alan,
I just wanted to let you know that I will be unable to attend the pre-hearing conference for Sidon/CGV scheduled for tomorrow, March 14, 2007. I believe I/EC commented previously on these files and those comments should still be on the record. I will however be attending the hearing but will not be making a presentation. Essentially EC doesn't have concerns that these projects will cause significant environmental effects as they are described. Should these projects expand and/or change, EC would like an opportunity to review and perhaps provide additional comments. I will be out of the office from March 14-22. Please contact Mike Fournier if you have any questions. Thanks for your time.
