Dear Mr. Ehrlich:

Re: INAC Hearing Undertaking – Map

As undertaken during the public hearing for the Consolidated Gold Win Ventures and the Sidon International Resources environmental assessments, Indian and Northern Affairs Canada (INAC) has completed a map of the land use permits, water licences, surface leases, mineral claims and mineral leases in the area south and east of Yellowknife. Please note that the area covered by the map is somewhat larger than was discussed during the questions posed to INAC during the hearing.

The data on the map are current to April 12, 2007. We have also produced a list of the land use permits, water licences, surface leases, mineral claims and mineral leases shown on the map. Additional details are available via INAC's SID-Viewer website at http://nwt-tno.inac-ainc.gc.ca/ism-sid/index_e.asp or by contacting INAC. The map is provided for illustrative purposes only and the list is provided as background information; questions on any particular item should be directed to the Mackenzie Valley Land and Water Board (for land use permits and water licences) or to INAC (for surface leases, mineral claims, and mineral leases).

The map and accompanying list of permits, licences, and rights have been emailed to you. Please advise if you require the map in other formats. If you have any questions about this undertaking, please contact Lorraine Seale at (867) 669-2590 or Lionel Marcinkoski at (867) 669-2591.

Regards,

David Livingstone
