Consultation Efforts

CONSOLIDATED GOLD WIN VENTURES INC. / SIDON INTERNATIONAL RESOURCES CORP.

- First Nations groups were contacted in the fall of 2004 and again in 2005 by GeoFin
- Attempts were made by Rescan to consult with the YKDFN in the summer and fall of 2006

- Ensure potential drill locations are not of archaeological or spiritual significance

- Identify sensitive fish habitat
 - Fieldwork will be carried out in the summer months to identify fish habitat, if necessary
 - A bathymetric survey will be conducted, if required
- Mitigation
 - Spawning shoals will be avoided
 - Drilling will only be on areas frozen to the substrate or areas greater than 11 m deep

Where do we go from here?
