Re: Pine Point Mines Proposal; Environmental Assessment concern.

Urgent  For Review  Please Comment  Please Reply

Dear Sir / Madam

On behave of the Naxehcho (Elders), Harvesters and the Dehcho Communities along the Mackenzie River, I would like to express some of my concern regarding the proposed project and the possible impact it will have on those communities down stream from the proposed Pine Point project.

Since the closure of the mine and now this proposed project, the communities down stream have not been consulted on the effect of the mine nor have the been consulted on the impact. As you know the Naxehcho (Elders) and Harvesters consider themselves stewards of the land and all living things and as such have a duty to hear what the proposed mine could do to our environment, wildlife and marine life. We know what the quality of our water, marine and wildlife that depend on the water are. Therefore an Environmental Assessment should not be ignored. Thank You

Samuel Gargan; Assistant Negotiator.
