Hello Alistair,

Given the proponent's responses to NRCan's question of clarification and explosives questionnaire, it appears that NRCan will not be issuing any licenses or permits for the proposed Pines Point project based on documentation and communication received to date. As such, we are not a Responsible Minister to this assessment.

Please do not hesitate to contact me should you have any questions.

Sincerely,

Andrew McAllister

Good Morning Andrew,

In response to your question, Tamerlane's advanced exploration project is an underground operation, therefore, the explosives magazine permits will be obtained through the workers compensation board in the Northwest Territories.

If you have any further questions, please don't hesitate to ask.

Thank you,

David Swisher

Hello David,

Thank you for the completed questionnaire.

One question of clarification based on the completed questionnaire:

1. Will the surface temporary explosives magazine (storage) license be obtained from the territorial government or Natural Resources Canada?

thank you,

Andrew McAllister

Andrew,

Please see attached responses by Tamerlane to the questionnaire you sent July 11, 2006. I apologize for the late response as I've been out of town on business. If you have any questions, please don't hesitate to call.

Thank you,

David Swisher

Subject: Explosives Questionnaire for Pines Point

Hello David,

Based on discussions with the Mackenzie Valley Environmental Impact Review Board and the review of available documents, Natural Resources Canada requires further information on explosives from Tamerlane Ventures Inc. regarding its proposed Pines Point project. This information is required to aid in determining Natural Resources Canada's likely role in the environmental assessment of this project under the Mackenzie Valley Resource Management Act. A questionnaire is attached, which will help facilitate this determination.

Should you have any questions on Natural Resources Canada's request for further information, please contact the undersigned.

Sincerely,

Andrew McAllister
