Re: Public Hearings-Fort Resolution

In preparation for the public hearings to be held in Fort Resolution, Katlodeeche First nation will be speaking to the participants regarding the PPPP with Tamerlane Ventures Inc. The council will be represented at the meeting and will pose the following questions to Tamerlane. There may be other comments and/or questions directed towards MVEIRB from the Chief & Council

Question 1.

1. "Please explain how the injection well will be maintained?"
2. "Why have a settling pond?"
3. "What are the issues regarding having a settling pond versus a tailings pond?"
4. "What are the long term implications of handling this material (concentrate)?"
5. "How will the transportation of concentrate and storage of concentrate be monitored?"
6. "The deposit closest to Buffalo River on the east side is how far from the river, and the one on the west side of the river how far is that from the river?"
7. "Are there any concerns with the ground collapsing when these tunnels are constructed?"
8. "How many buildings are Tamerlane considering building and do you have a contractor selected to construct these buildings?"
9. "Are there any toilet facilities underground? We were questioning washroom facilities underground, or do workers have to go to the surface?"

10. "Is the DAR, application for license and permits on the public registry?"
11. KFN: Question " How many employees do you currently have?"
- 12.. KFN: Question: "Is this the only drilling program that Tamerlane will have?"
13. "Won't the truck freeze up after the wash during the winter month?"
14. KFN: Question: "What type of trucks will you be using?"
15. What are the next steps for MVEIRB following these sessions?
