Re: Notification of party status for EA0607-002

The Mackenzie Valley Environmental Impact Review Board (Review Board) met in Yellowknife on June 19, 2007, to discuss, among other things, granting of party status for organizations wishing to become parties to the environmental assessment (EA) of Tamerlane Ventures Inc.'s proposed Pine Point Pilot Project, an underground mine at the R-190 site in the South Slave.

The following organizations were subsequently granted party status by the Review Board:

- o Environment Canada
- o Indian and Northern Affairs Canada
- o Government of the Northwest Territories – Environment and Natural Resources
- o Health Canada
- o Deninu K'ue First Nation
- o Northwest Territory Métis Nation
- o Fort Resolution Metis Council
- o Town of Hay River

It should be noted that Tamerlane Ventures Inc. was already considered a party as developers are automatically a party to a Review Board proceeding.

Individuals or organizations who have not yet become parties to this EA, but still intend to, may do so at anytime during the assessment until the closing of the public record, however, they are encouraged to apply as soon as possible. The roles and responsibilities of parties to an EA are described in the Review Board's *Rules of Procedure for Environmental Assessment and Environmental Impact Review Proceedings*, which is available from the Review Board's website at [www.mveirb.nt.ca](http://www.mveirb.nt.ca) or by directly contacting the Review Board office.

Any further questions regarding this matter should be directed to me by email at [amacdonald@mveirb.nt.ca](mailto:amacdonald@mveirb.nt.ca), by fax at (867)766-7074 or by telephone at (867)766-7052.

Yours truly,
