RE: Land Use Permit Application for Ur-Energy at Screech Lake

Chief Liske and Chief Beaulieu

Ur-Energy Inc. has contracted Golder Associates to assist with applications for a Land Use Permit at their Screech Lake camp, approximately 300 km east of Lutsel K'e, near Beaverhill Lake. The camp coordinates are 516200E 6959000N, UTM zone 13 (illustrated on the attached map). Ur-Energy hopes to conduct exploratory drilling within the property. Plans include the construction of a six-tent camp, including a kitchen, dry, office, sleeping quarters, outhouse and a core shack. One drill and one helicopter will be at the site, and a total crew of eight people. Drilling could start as early as October 2006, but will most likely be conducted in March and April 2007. Further details regarding the camp and Ur-Energy's plans will be presented in an upcoming permit application to the Mackenzie Valley Land and Water Board.

Prior to making this permit application, Ur-Energy plans to hold consultations with the Lutsel K'e Dene First Nation Chief and council, and with the Treaty #8 Tribal Corporation. These meetings will take place between May 22 and June 2 (exact date yet to be determined). We would also like to extend the opportunity to the Yellowknives Dene First Nation to be involved in these negotiations. During the previous Land Use Permit application at the same property by Ur-Energy, the Yellowknives Dene First Nation deferred to the Lutsel K'e Dene First Nation to provide comments, stating that the project was in Lutsel K'e territory. If the Yellowknives Dene First Nation would like to meet with Ur-Energy prior to this land use permit application, please contact Damian Panayi of Golder Associates Ltd, at (867) 873-6319, to arrange a meeting.
