AND Damian Panayi OF Golder Associates Ltd. DATE 9 May 2006 TIME 1100

REF

PHONE

SUBJECT

Ur-Energy Land Use Permit Application

DISCUSSION

I explained to Irvine that Ur-Energy will be holding meetings with the LKDFN and Tribal 8 Treaty Corp. Asked if this would be sufficient, or if the DKFN should also be consulted.

Irvine had not yet seen the letter and map, but felt that meetings with the DKFN would be required. Asked that we get back to him when we have a date in mind. He will look for the letter and map sent on 3 May by Golder.

FOLLOW-UP REQUIRED

-Inform Irvine of the date when it has been decided, and make sure he sees a copy of the map showing the location of Screech Lake.

RECORD OF FOLLOW-UP

16 May. Spoke to Irvine, who confirmed that they consider Screech Lake to be within their traditional territory, and they have documented this to be so. Would like a meeting with Ur-Energy. I suggested the week of June 5, Irvine asked for a fax once we have the final date.

23 May. Paul Boucher. Paul said the chief would be away the week of June 5. I said we did not require any motions, so we may not require the chief. Otherwise we could not meet until late June or early July. Paul will check with the Council.
